

STORYBOARDING:

did you choose
to have a car

yes

- why:
- parents influence
- work/school
- other

No

- why:
- i can't
- don't want/money
- other

based on people's
responses (with stuff
w/ generalized, then
- adjust to data / responses)

what's your car payment
amount/predictor
= 3 numerical

- ↳ Break down into categories:
car insurance / gas / maintenance / payments

either amount is
above / below

+ percentage about
how much % goes where
+ life long accumulated amount

domestic
consequences

case study: timeline of car dependency
in the US / world cases

caution action: Does knowing this change?

So did you really choose to
have a car

=>

So, will you still be
getting a car

Final
RVC Chart

Implications
on the US

=> show how
US interacts w/ those countries
and their history w/ those
countries (top exporters)

quick explanation
how it started / what
it is =>
